Total Revenue

Our total revenue (including other income) increased by:

- 14.6 million euros, or 7%, to 223.7 million euros for the nine months ended September 30, 2013, compared with 209.0 million euros for the nine months ended September 30, 2012;
- 7.5 million euros or 12.2% to 69.6 million euros for the third quarter 2013, compared with 62.0 million euros for the third quarter 2012.

CERVED GROUP S.p.A.
CONSOLIDATED FINANCIAL REPORTING
AS OF SEPTEMBER 30, 2013

This increase over the nine months period ended September 30, 2013 was primarily due to:

- revenues arising from the two acquisition which occurred in March and May 2013, Cerved Data Services and Tarida, amounting to 3.9 million euros and 4.3 million euros respectively;
- the organic increase in revenues of 6.4 million euros primarily driven by the Value Added Services segment.

Credit Information

Our credit information revenues increased by 7.8 million euros, or 4.2%, to 194.0 million euros in the nine months ended September 30, 2013, compared with 186.2 million euros in the nine months ended September 30, 2012. For the three months ended September 30, 2013, credit information revenues increased by 5.7 million euros, or 10.4%, to 59.9 million euros, compared with 54.3 million euros for the three months ended September 30, 2012.

Corporate

Credit information services sold to corporate customers increased by 8.6 million euros, or 9.3%, to 100.9 million euros in the nine months ended September 30, 2013, compared with 92.3 million euros in the nine months ended September 30, 2012.

The third quarter 2013 was particularly strong with an increase in revenues of 16.9% or 4.3 million euros compared with third quarter 2012:

- 0.8 million euros from revenues arising from the new business Cerved Data Services;
- 1.1 million euros from revenues related to new products launched at the end of year 2012, primarily B Circles and services for Public Administration;

Financial Institutions

Credit information sold to financial institutions decreased by 0.7 million euros, or -0.8%, to 93.1 million euros in the nine months ended September 30, 2013, compared with 93.8 million euros in the nine months ended September 30, 2012.

However, the three months ended September 30, 2013 were stronger with an increase in revenues of 4.6% or 1.3 million euros compared with the three months ended September 30, 2012, benefitting from 0.9 million euros of revenues arising from the new business Cerved Data Services.

Business information services sold to financial institutions decreased as a result of a decrease in underwriting volume during the period caused by continued adverse macroeconomic conditions, partially offset by increased demand for business information for monitoring asset bases. In addition, while business information declined versus prior year period, the demand from small and medium sized banks outperformed our expectations. During the period we also in some cases offered discounts on our business information product line to financial institutions that purchased our other services.

Real estate services to financial institution customers decreased during the nine months ended September 30, 2013 compared to the prior year, primarily due to a decrease in real estate sales volume and mortgage lending in Italy during the period. However Cerved continues to outperform the market, with increased order entry in the new segment of Real Estate Appraisal which will compensate difficulties in Cadastral Survey.

Rating systems decreased primarily due to changes in the ratings guidance published by the External Credit Assessment Institute, which incentivized financial institutions to apply pre-set rates for provisions on their asset base rather than externally-generated ratings based on credit analysis.

AS OF SEPTEMBER 30, 2013

Value-Added Services & Others

Our Value-Added Services and other revenue increased by 6.8 million euros, or 29.9%, to 29.7 million euros in the nine months ended September 30, 2013, compared with 22.8 million euros in the nine months ended September 30, 2012. For the three months ended September 30, 2013, value-added services revenues increased by 1.9 million euros, or 24.3%, to 9.7 million euros, compared with 7.8 million euros for the three months ended September 30, 2012. Credit collection revenues increased strongly as a result of an increase in non-performing loans serviced during the period: total assets under management grew by more than 4.6 times in value vs. December 2012, amounting to 8.4 billion euros as of September 30, 2013.

The vast majority of this growth was as a result of Jupiter Group contracting the servicing of three new portfolios from Credit Agricole on April 6, 2013, with a gross book value of 5.5 billion euros.

Cost of raw material and other materials

Our cost of raw material and other materials increased by 58 thousand euros, or 11.9%, to 548 thousand euros for the nine months ended September 30, 2013, compared with 490 thousand euros for the nine months ended September 30, 2012.

Cost of services

Our cost for services increased by 7.3 million euros, or 14.3%, to 58.3 million euros for the nine months ended September 30, 2013 compared with 51.0 million euros in the nine months ended September 30, 2012. This trend was the result of:

- an increase of 3.9 million euros of information services costs on a recurring basis, primarily due to the effects of the new business acquired in 2013, with related information services costs amounting to 1.9 million euros;
- an increase of 1.8 million euros of business process outsourced costs;
- an increase of 3.0 million euros of other consultancy, commercial and services costs, which increased as a result of costs attributable to the Jupiter Group, including costs applicable to the Jupiter remarketing business.

In the three months ended September 30, 2013 cost of services increased by 4.3 million euros to 19.3 million euros, compared with 14.9 million euros for the three months ended September 30, 2012, where the increase from the new business acquired amounted to 1.6 thousand euros and was mainly related to information services.

Personnel costs

Our personnel costs increased by 0.2 million euros, or 0.4%, to 49.0 million euros for the nine months ended September 30, 2013, compared with 48.8 million euros for the nine months ended September 30, 2012. The increase in personnel of new businesses acquired in 2013, with related costs amounting to 2.7 million euros, has been partially offset by a decrease of business process internalized costs and a decrease of non recurring restructuring costs.

The increase in personnel costs from the new businesses acquired was concentrated in the second quarter, and for the three months ended September 30, 2013, personnel costs decreased by 0.1 million euros, or -0.9%, to 15.9 million euros, compared with 16.1 million euros for the three months ended September 30, 2012.

EBITDA

Our EBITDA increased by 6.9 million euros, or 7.0%, from 99.3 million euros in the nine months ended September 30, 2012 to 106.2 million euros in the nine months ended September 30, 2013 as a result of top line growth, cost synergies and greater efficiency in production processes. For the three months ended September 30, 2013, EBITDA increased by 3.9 million euros, or 13.8%, to 31.8 million euros, compared with 28.0 million euros for the three months ended September 30, 2012.

Operating Profit

Operating profit increased by 24.7 million euros, or 52.3%, to 72.0 million euros in the nine months ended September 30, 2013, compared with 47.3 million euros in the nine months ended September 30, 2012. Our financial charges increased by 26.1 million euros, to 43.4 million euros for the nine months ended September 30, 2013, compared with 17.3 million euros for the nine months ended September 30, 2012. This increase was primarily due to increased debt capitalization following the issue of the high yield bonds of 780 million euros on January 15, 2013.

Income tax expense

Our income tax expense increased by 3.4 million euros, or 27.5%, to 15.7 million euros for the nine months ended September 30, 2013, compared with 12.3 million euros for the nine months ended September 30, 2012. CONSOLIDATED FINANCIAL REPORTING
AS OF SEPTEMBER 30, 2013

The preparation of the Interim Financial Statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

Under IFRS the income statements included in these interim financial statements relate to the nine months period for Cerved Group (effective from January 9, 2013, date of incorporation), whilst the Cerved Holding Group revenues and expenses refer to a period of four months only because have been consolidated effective from the acquisition date from Cerved Technologies (February 27, 2013, which has been conventionally considered March 1, 2013).

New businesses acquired during the year 2013 have been consolidated effective from the acquisition date, i.e. April 1, 2013 and May 1, 2013 respectively for Cerved Data Services S.r.l. and Tarida S.p.A..

3. Seasonality of operations

The Group's financial results for any individual quarter typically are not sensitive to seasonality. However, results for interim periods are not necessarily indicative of results that may be expected for any other interim periods or for a full year.

4. Operating segment information

The board of directors is the Group's chief operating decision-maker.

Management has determined the operating segments based on the information reviewed by the board of directors for the purposes of allocating resources and assessing performance, as follows:

- Credit Information;
- Value Added Services.

The board of directors assesses the performance of the operating segments based on EBITDA. The Group defines EBITDA as the profit for the period before depreciation and amortisation, non recurring costs, financial income and charges, share of loss/(profit) of associates and income tax expense for the period. Specifically, management believes that EBITDA provides an important measure of the Group's operating performance because it is not affected by the impact of different criteria applied to determine taxable income, the amount and characteristics of employed capital and depreciation and amortization policies.

The following table presents revenue and profit information regarding the group's operating segments for the nine and three months ended September 30, 2013:

The interest rate risk is managed by having our debt in fixed rate form, having entered into floating to fixed interest rate swaps for the €250 million aggregate principal amount of Senior Secured Floating Rate Notes due 2019 (Eurobor 3m + 5.375%).

CERVED GROUP S.p.A.

The credit risk refers exclusively to trade receivables, but the Company does not believe that risks related to this area are significant because its sales policies are implemented with the aim of establishing relationships with customers of adequate size and profile.

10. Oversight and coordination activity

The Company is subject to oversight and coordination pursuant to article 2497 and subsequent articles of the Italian Civil Code from its parent company Chopin Holdings S.à.r.l..

CONSOLIDATED FINANCIAL REPORTING
AS OF SEPTEMBER 30, 2013

1. Basis of preparation

Financial information here reported are prepared on a proforma basis thus including, for the year 2012, Cerved Holding and, for the year 2013, Cerved Group assuming Cerved Holding was consolidated as of January 1, 2013.

The Pro Forma Financial Statements are prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (“IFRS”) and consistently with the Annual Audited Financial Report.

The Interim Financial Statements are stated in thousands of Euros, except where otherwise indicated.

2. Operating segment information

Management has determined the operating segments based on the information reviewed by the board of directors for the purposes of allocating resources and assessing performance, as follows:

- Credit Information;
- Value Added Services.

The board of directors assesses the performance of the operating segments based on EBITDA. The Group defines EBITDA as the profit for the period before depreciation and amortisation, non recurring costs, financial income and charges, share of loss/(profit) of associates and income tax expense for the period. Specifically, management believes that EBITDA provides an important measure of the Group’s operating performance because it is not affected by the impact of different criteria applied to determine taxable income, the amount and characteristics of employed capital and depreciation and amortization policies.

The following tables present revenue and profit information regarding the group's operating segments for the nine and three months ended September 30, 2013 and the same periods in the prior year:
